WHIG NOMINATIONS. FOR PRESIDENT WINFIELD SCO

"A proposition was made to me to remain in Mexico and govern it. They offered me one million of dullars as a bonns, with a salary of \$250,000 per annum, and fine responsible individuals to become scarity in any Bank in New-York which Imight name. But I loved my distant home, the soil of my swn beloved country and its free insitutions. I CAME BACK TO DIE UNDER THOSE INSTITUTIONS, and here I um.—[Gen. Scott's speech.

"I called around me men that could be trusted, and told them the hour had come for a decisive blow—data a work surface or the Canada Frontier that would lift the hearts of the American People from the gloom of recent events, and emble them and their children to ring bells, to fire cannon and build benfires in Commencations of American Vioranies that should obscure the menory of Hull's currender. WE FELL TO WORK AND THE THING WAS DONE. The BATTLES of CHIPPEWA and LUNDY'S LANE followed.—[Gen. Scott.]

"I shall be ready, also, to recommend or approve of a single alteration in our Naturalization Laws, suggested by my Military experience, viz:—Giving to all Foreigners the right of Citizenship who shall faithfully serve in time of war one year on board of our public ships, or in our land forces, regular or regular or their recording to the contract of the c regular or volunteer, on their receiving an honorable discharge from the service."-Scott's Letter of Acceptance.

"Certainly it would be impossible for me to recommend or support any measure intended to exclude them from a JUST AND FULL PARTICIPATION IN ALL CIVIL AND POLITICAL RIGHTS NOW SECURED TO THEM by our Republican Laws and Institutions.—General Scott's Letter.

I said to them that a man traveling through this State would nowhere be without a school house or church of God under his eye; and where these go together, good faith and public credit are inevitable. And this is a truth which cannot be too often impressed upon the mind. WITHOUT the CNION OF EDUCATION AND RELIGION, THERE IS NO FAITH IN MAN .- From

Who is the Candidate of a Foreign Power?

From the London Times. " THE TRIUMPH OF THE CANDIDATE OF THE DEMOCRATIC PARTY, BROUGHT FORWARD BY "THE TRUMPH OF THE CANDIDATE OF THE DEMOGRATIC PARTY, BROUGHT FORMED BY THE MER OF THE SOUTH, WILL SECURE, PROBABLY, FORBYER, THE ASCRNIENCY OF LIBERAL COMMERCIAL PRINCIPLES, and if Lord Derby should next year be disposed to take the American tariff for his model, we have little doubt that IT WILL SERVE TO REMOVE THE LAST ILLUSIONS OF THE PROTECTIVE SYSTEM FROM HIS MIND. In this respect and on this point, we take Gen. Pierce to be a fair representative of the opinions of Mr. Calhous, and, as such, a valuable PRACTICAL ALLY to the Commercial policy of this country."

From the Manchester Examiner.

"The election of Gen. Pierce will at any rate prove that the Democratic majority, whatever may be their other differences, are unanimous in their testimony on behalf of a liberal commercial policy, and any government he may form will be one on which the country may rely for expectable accountry may rely for the recurrence of the reputation of the resulting impediments to international intercourse."

From Wilmer & Smith's European Times.

"As regards England, public sympathy, it is needless to say, is enlisted on the side of the Democratic candidate. Not that Gen. Pierce is considered the BETTER MAN. FAR OTHERWISE. He is merely the accepted nominee of that great party of the Union who DESIRE TO PUSH THE FRINCIPLE OF FREE TRADE TO ITS UTMOST LIMITS."

From the London Despatch.

"The two parties of the Republic, Whig and Democrat-that is, Conservative and Progressive, protectionist and Free Trade—appear to have marshalled their forces, and selected their candidates for the coming election. EVERY ENGLISHMAN, of almost every class, REJOICES IN THE EXPECTATION OF SUCCESS FOR THE DEMOCRATIC, PROGRESSIVE, FREE TRADE PARTY."

Internal Improvements.

WHIG RESOLUTION:

6. The Constitution rests in Congress lie power to open and repair harbors, and remove obstructions from mavigable rivers; and it is expedient that Congress shall exercise that power whenever such insprovements are necessary for the common defence or for the protection and facility of commerce with festign nations or among the States; such improvements being, in every instance, national and general in their character.

To this sentiment Gen. Scott cordially subscribes.

LOCOFOCO RESOLUTION:

2. That the Constitution does not confer upon the General Government the power to commonce and carry on a general system of internal improvements.

To this sentiment Gen. Furner not only subsorbes, but in a speech delivered by him at Bradford, N. H., no longer ago than fast fundary, he said,

"That appropriations by the Federal Government for the improvement of rivers and harbors were of a purely Federal character, and repugnant to the principles and practices of the Democracy of this State," and "that no person elected to Congress from this State HAD EVER SUPPORTED measures for those Dumocracy.

State." and "that no person elected to Congress from this State HAD EVER SUPPORTED measures for those purposes."

The Albany Argus says:—"The denial of the right of the General Government to prosecute works of internal improvement within the States, is, in its general terms, the doctrine of the democracy, and, as we believe, the sound constitutional doctrine!"

The Manufactures of England.

A late number of the London Times contains n article of over a column of closely printed matter, giving details of the wonderful progress of British manufactures during the past five years—since the Tariff of 1846 went into operation. We copy the closing paragraphs. After enumerating an immense number of factories going up all over the island, of every conceivable variety, the Times

Large as some of the above named establish-Large as some of the above named establishmants are, however, they shrink into insignificance almost by the side of one which is building near Bradford, and which is for the alpaca manufactures, which have recently sprung into repute, us well as for cotton. The magnitude of this concern, which is erecting for Air Titus Salt (already known as an extensive manufacturer,) may be inferred from the fact that it is calculated to cover six statute acres of ground. The principle building will be a massive stone edifice, with considerable architectural pretensions, having a single room in it 540 fact long, and the machinery will include the latest inventions of acknowledge merit. The energies to move the immense mass of marinclude the latest inventions of acknowledge ment. The engines to move the immense mass of machinery required are making by Messrs. Fairburn, of Manchester, and they are calculated at 1900 horse power. The gas works alone will be equal to those of a small town, and will be orected upon

What has caused the great prosperity of the manufacturers and founders of Great Britain ?-

Two items of policy have done it all ; and they are these:---In order to manufacture cheaply, and break down competition abroad, she threw her Ports open for certain kinds of breadstuffs, so as to let ber operatives have cheoper food, and thus live on less wages. But she wanted to be paid for even this sacrifice, and so she brought her influence to

to open her an abundant market for all that she ould manufacture, and-The Turiff of 1846 was the result, breaking down with a crash, like the falling of trees in a forest, the manufactures of this country, and opening to those of Great Britain all the market that

they could want. The benefits to England from her own shrew-l ness, nided by the anti-American policy of the sham democracy, have been manifold and mani-fest to her every interest. She is the workshop of the World, and her prosperity was never so great, while she is forcing the United States back to a colonial state of dependence upon her. She is breaking down the industrial interests of this country, and having already done so to a great xtent, she feels secure. She thinks that the American people will be deceived again by her syren song of Free Trade, and will elect FRANK-IN PIERCE, her "VALUABLE PRACTICAL ALLY," (to use the words of her press) as President, and that he will carry out her policy.

Franklin Pierce was nominated, as a last deserate chance for a candidate, late on Saturday. unday come next, and no meeting could be heldbut on Monday evening, a ratification meeting was held at Philadelphia, where Geo. M. Dallas jate democratic Vice President, charged boldly that "Gen. Pierce and his party had, time after time, labored to have the Catholic test expunged, while they only failed through the opposition of the Whigs and Abolitionists." This was the commencement of the "append to religious pre-judices," and it was an infermous falsehood.--Knowing it to be such, we se! ourselves at work to meet it, wherever it should :make its appearance in the canvass. We have done it. Facts and figures have disproved it, time and again; and the records of the Convention have shown that with all the unbounded influence which Gen. Pierce was able to exert with his party if he chose, and which he did exert in other cases —he neither spoke a favor of abolishing the test, in Convention, or pefore the people, until too late: to have any effect

If the facts which we have thus brought up in elf-defence have proved the strongest weapons against Gen. Pierce and his party, it surely is not our fault. At all events, it does not look well for the party which commenced the thing, to accuses of appealing to teligious prejudices.

The Work in loves.

The last Iowa Republican contains another able letter from Ex-Gov. Lucas, formerly of Ohio, and in influential Democrat, giving further reasons why he goes for Scort and GRAHAM. His letters are having a wonderful effect in Lowa. On the ubject of protection, he says:

"With regard to general policy the democratic ad-ministrations of Jefferson, Madison and Jackson, all united to give protection to the industry of the country; to induce manufactures to make what we needed, and from such naturals as would render the business of the country completely independent of all control for fereign nations. These great lights of democracy also, considered it both constitutional and expedient, in regulating commerce between the States, to improve rivers and harbors whenever such improvements might be deemed necessary to advance the general interest and prosperity of the country.

Lectures by Park Benjamin.

The following letter, signed, as the reader will perceive, by several prominent citizens, conveyed an invitation to Mr. Benjamin last year to lecture in corcity. He accepted; but was, in couse quence of unforeseen events, prevented at that time from coming as far West as Milwankee. He is at present at Chicago, engaged in delivering a course of lectures before the Mechanic's Institute of that place. When this course shall be comple ted, it is, we learn, his wish and intention (accepting a second time the invitation hereto aunexed.) to visit Milwaukee, and give his humorous and satirical poem on "Fashion," and, per haps, others; but that will depend upon the fayor and kindness with which he may be received

In all the Eastern cities, New York, Brookly Boston, Buffalo, Rochester, Troy. Syraense, Utica and many more, these lectures have been, night after night, attended by very large audiences The same success meets them in Chicago, and will, we trust, in our own city.

By Last Night's Mail. DEATH OF MR. WEBSTER. Circular from the President.

New York, Oct. 26. The President of the U.S. has addressed the following letter to the beads of the departments regarding the decease of their lamented associate, Deniel Webster —

Executive Mansion,

Washington, Oct. 25, 1852 }

Washington, Oct. 25, 1852 }

Gradinata:—The painful intelligence received restorday, enforces upon me the said duty of anisouncing to the Executive Departments the death of the Fereitary of State. Daniel Webster died at Marshfield, Mass. on Sunday, the 24th Oct, between the hours of 2 and 3 o'clock in the morning. Whilst this irreputable loss brings its natural sources to every American beart, and will be heard far beyond our borders with mournful respect, wherever civilization has nutrured men who find in transcendant intellect and faithful patriotic service, a theme for praise.

It will visit with still more polyganit emotion his colleagues in the administration, with whom his relations have been so intimate and cordial. The fence of our illustrious statesman belongs to his country—the admiration of it to the world. The record of his wisdom will inform future generations, no less than its uiterance has cullightened the present.

Present.

He has bequeathed to posterity the richest fruits of the experience and judgment of a great mind, conversant with the greatest national concerns, it these his nemory will endure as long as our country shall contine to be the home and guardian of

WATHAM, MASS, Oct. 15

Nas: Day before yesterday Franklin Pierce was in Boston again. The people did not know that he was coming; the people did not know that he was coming; the people did not enre that he head come. Never, since the formation of this Republic, did a Presidential candidate move about with so little notice; never with so little enthusiasm on the part of the people. It is not to be wondered at, for what has he done to rouss the warm blood of the people? Nothing! There are a hundred toer in this little town who are as much entitled to the Presidential chair, so far as acts and merits go as Franklin Pierce; men of mere mediocity, too. A short time since he went over the Finchburgh railroad to Concord, Mass, for some electioneering purpose, and while on the way he spoke to the conductor of the train and said this to him: "You will oblige me, sir, by not mentioning that I am in the cars, for the people would probably interrupt me." Prodigious! Did you ever hear the like of that before? The conductor tells the story as the fichest specimen of vanity that ever went over the road. General Scorr is a vain man, they say,—the Locofocos say—but here is a specimen of Franklin Pierce's modesty. He went quietly to the end of his journey; and the conductor says that the people did not interrupt kine. Not a hat was raised, although the people to public. To the Editor of the Republic:

THE JAPANESE SQUADRON.—The press throughout the country will cordially unite in the senti-ments expressed in the following article from the N. F. Times. No case has ever bored us so thoroughly, not even the massacre of Capt Marcy and

the company:

The Princeton, we learn, is at last ready for sea. In a day or two, she will join the other respects detailed upon the Japan expedition, and then the fleet will said for the held of operation. Let us be duly grateful. The enterprise has been a sed here to us ever since it was devised. It has used our patience, pearled our brains, filled our selegraphic colouring, and been productive of statement, and counter-statement, until in good sooth we have wished it at the very Ultima Theat of insular discovery. No offence the Japanese authorties have erre rounnitted could justify towards them the treatment that has been inflicted upon us.—The departure of the Squadron will be as welcome as the most triumplant return. Not that we impensed the least ill-success upon the gallant company who man the ships. We shall go the whole length with those who go the further in wishing them the best possible speed consistent with every humans consideration; and doubtless we shall be in a better humor will them, as they sail away, unless they be too frequently spoken by homes and bound crafts. But while they linger, we pretend to no toleration. It would be incensistent with that laudable curiosity, in this insume defeated, which is the great national characteristic and pride of the Yankee.

Nor were they brought before an United States Commis-sioner for a hearing "forthwith," as provided for,

by the law.

It is proper to add, that, in our opinion, the course pursued by Mr. Sloane, the course for the negroes, indicated no desire to violate the law or its provisions; but that if the individuals thus informally detained, had been arrested by the authorities and arraigned before a competent tribunal, both parties would have had a fair hearing.

mates the loss by the recent great fire in Ogdens-burgh at \$150,000! This is by fur the most disastrous fire by which Ogdensburgh has ever been risited, having destroyed twenty stores, ten or twelve dwellings, the Ogdensburgh bakery, two cabinet shops, two tin shops, one blacksmith shop. one wagon shop, besides some fifteen or twenty other places of business of different kinds. The Sendinel says:—

This destrictive he has intown out of the mess a large number of our most enterprising traders, who, from the great scarcity of stores, within it difficult to re-open till other buildings shall be put up—which owing to the lateness of the season, can hardly be done before spring.

We are informed that the St. Lawrence Firs Line We are informed that the St. Lawrence Fire Insurance Company has sustained a loss not exceeding five hundred dollars. The North Western Coof Oswego, and the U.S. Mutual Insurance of Potsdam, are understood to have been far the heaviest losers, their losses exceeding \$10,000 each; while the Erns and Protection of Conn.; Farmer's Mutual O Goedin; Howard, N. Y.; Northern Protection, Camden; Union Mutual and Etna of Utica, and some others, are understood to have best considerable sums.

The situation of the fire, when first discovered, leaves little doubt that it was the work of an incendiary. When first seen, the carriage shop of Mr. Lamb was in flames at two opposite corners, and no fire appeared around the stove in the center of the Shop. No one connected with the shop had been in it later than 9 o'clock, last evening.

the vote was very small, and furnishes no indication whatever.

We repeat then, that if 27 counties give us gain of 7,000 on the vote of Taylor, it proves beyond a doubt, that the State will go for Scott if there is a full vote. What is to be done then, is to bring out a full vote, with perfect confidence that THE STATE IS FOR SCOTT—IF WE WILL VOTE.
